

SAYS THE EXPORTS ARE VERY LARGE

DUN'S REVIEW OF TRADE GIVES BIG FIGURES

All Records Are Running Behind Last Year's—Failures Decrease—Bradstreet's Says Home Trade Has Shown No Noticeable Improvement

New York, Nov. 27.—R. G. Dun & Co.'s Weekly Review of Trade says: "The heavy exports of wheat, with the renewed advance in price, is the most interesting and important feature of the week's events. Since August, when the extent of the foreign deficiency became realized, exports have been larger than in corresponding weeks of any previous year. The cotton exports also have become very heavy, and the outgo of corn falls but little below last year's unprecedented record, while in exports of manufacturing products, especially machinery, all records for the season have been surpassed. Meanwhile imports are running behind last year's at New York nearly \$2,000,000 this month, so that another excess of exports over imports amounting to about \$60,000,000 for the month is probable. But this would make an excess of about \$225,000,000 in four months.

"Western receipts of wheat are of enormous magnitude in four weeks, being 27,072,104 bushels, against 9,214,835 bushels in the same four weeks last year. Cotton declined to 5.81 cents, the lowest point for many years. The iron industry shows no decrease in production or consumption of pig, but with much reduced orders for products excess of production is expected. In bars agricultural and railway manufacturing causes a heavy demand at Chicago iron being preferred to steel. The woolen manufacture is still consuming heavily in execution of past orders and many agents are sold so far ahead that they seek no further business. Some reduction in prices of wool appears.

"Failures for the week have been 234 in the United States, against 300 last year, and 25 in Canada, against 38 last year."

Bradstreet's says: "Notwithstanding the appearance of a demand for holiday specialties at some points in the south, at Chicago, St. Louis and in regions tributary thereto, general trade throughout the country has shown no general improvement this week. Most favorable reports are from the territory west of the Mississippi river and north of Missouri and Kansas, where colder weather has stimulated demand at the interior, and country merchants have been buying with comparative freedom.

"The eastern cotton goods industry continues depressed. Lines reporting seasonable distribution are manufacturers of woollens, clothing, shoes and jobbers of fancy groceries. A favorable feature is found in advances in wages of operatives in various industrial lines.

"Wheat exports, affected almost entirely by the holiday, show a considerable decrease from last week's total. The aggregate exports of wheat (flour included as wheat) from both coasts of the United States and from Canada this week are 5,465,153 bushels, against 6,653,000 bushels last week. Corn exports also would have been larger but for this reason, amounting to 2,869,000 bushels, against 3,309,000 bushels last week."

MRS. NACK SILENT.

Prosecution Closes Its Case Without Summoning Her.

New York, Nov. 27.—A surprise was furnished in the Guldensuppe murder trial Friday when the prosecution rested its case without summoning Mrs. Augusta Nack to repeat her confession charging Martin Thorn with the murder and acknowledging her complicity therein. After adjournment District Attorney Youngs said Mrs. Nack was not put on the stand because the case against Thorn was strong enough without her testimony. If, however, the defense should have Thorn testify the prosecution, he said, would certainly summon her in rebuttal.

An important witness Friday was John Gotha, a barber to whom Thorn is alleged to have made a confession soon after the murder. His testimony agreed substantially with the account printed last summer and strongly corroborated Mrs. Nack's confession.

Russia's Threat Not Heeded.

Constantinople, Nov. 27.—In spite of the protest of the Russian government, which recently intimated to the Porte that if any considerable part of the indemnity paid by Greece should be devoted to the extension of the Ottoman armament the Russian government would insist upon a payment of the arrears of the Russo-Turkish indemnity, long overdue, Turkey has placed With Herr Krupp, the great German gunmaker, an order for 150 large cannon at a total value of 1,500,000 marks.

To Protect the Reservation.

RUSSIA'S HAND IS SEEN.

China Refuses to Discuss German Demand for Indemnity.

London, Nov. 27.—China has refused to discuss Germany's demands for indemnity for the murdered missionaries, according to advices from Peking, via Shanghai, until the German forces leave the soil of China. Germany has refused to evacuate Kiaochow bay until the indemnity question is settled. The result is a deadlock, with considerable probability of actual war between Germany and China.

It is believed here that China's firm attitude is the result of an intimation that she will have the backing of Russia whenever necessary. If the generally accepted versions of the Cassini treaty are correct, Russia already has a mortgage on Kiaochow bay, and hence is not likely to regard German aggression there with patience.

Nebraska Stock Suffers.

Lincoln, Neb., Nov. 27.—Reports from various portions of the state show the blizzard of Thursday night to have been very severe. Much stock was driven from the regular feeding ground by extreme cold. Some details showing the loss of sheep around Sidney are the only definite source of information of loss to stock interests. The great number of Texas cattle in the state brought into replace the natives sold during the summer make the chances for loss greater, because they are not accustomed to the rigor of Nebraska winters. A few head of cattle are known to have been lost in the bluffs north of North Platte, where they went for protection from the wind and fell over the bluffs into the Platte.

May Run Their Own Church.

Birmingham, Ala., Nov. 27.—A conference of leading colored Presbyterian ministers of the United States in conjunction with the colored evangelization committee of the southern Presbyterian general assembly (white) and representatives of the northern general assembly began here Friday afternoon, its purpose being to organize an independent colored Presbyterian church in America. The colored Presbyterians generally have been under the supervision of the white church since the war, and the present effort is the first ever made to organize them into a distinct body.

Robbers' Methods in Africa.

London, Nov. 27.—A dispatch to the Times from Cape Town describes a bold attempt to rob the Standard Bank at Claremont, a suburb of Cape Town. A masked man entered the counting-room of the bank, locked the door and by some unknown means broke the neck of the cashier, though no mark of violence could be found on the body. When the manager of the bank appeared the robber shot and wounded him slightly. The police then rushed in, and the robber, seeing that all chance of escape was gone, shot himself dead.

Thornton Is Indicted.

Shelbyville, Ill., Nov. 27.—An indictment for embezzlement has been filed in Shelby county circuit court against Thomas M. Thornton, growing out of the collapse in July, 1893, of the banking house of Thornton & Son, the heaviest failure that ever occurred in southern Illinois. The indictment against him is causing considerable feeling, as a majority think the failure came through no dishonesty on his part.

Louisiana Levees in Danger.

Washington, Nov. 27.—The secretary of war has received an appeal for help from Louisiana, where the levees are said to be in danger opposite New Orleans. The matter has been referred by the secretary of war to General Wilson, chief of engineers, and by him has been sent to the Mississippi river commission, although it is said there is no warrant for federal interference in the matter.

Novak Case May Not Be Appealed.

Vinton, Iowa, Nov. 27.—The Novak case may not be appealed to the Supreme court. Attorney Milner, for the defense, said yesterday that it depended entirely on Judge Burnham's course. LET BULLETS SING OVER IN AFRICA

COLLISION BETWEEN BRITISH AND FRENCH TROOPS.

Niger Country In Dispute—Dagos Boundary Trouble May Now Be Definitely Settled By a Resort to Arms—History of the Causes Leading to the Dispute.

Berlin, Nov. 27.—A dispatch to the Frankfort Zeitung from Rome reports that a sanguinary conflict has taken place between the French and British at Nikki, in the Lagos Hinterland.

London, Nov. 27.—While the accuracy of the statement contained in the Rome dispatch to the Frankfort Zeitung, announcing that a conflict has taken place between the French and British troops in the Lagos Hinterland, is doubted, the London morning papers to-day pointed out the imminent danger resulting from the proximity of the two forces in the contested territory.

Later in the day a rumor was received at the British colonial office to the effect that there had been a collision between the British and French forces at Nikki, which is said to have been captured by the French troops.

The officials of the colonial office, however, regard this report as highly improbable, as, they explain, the British police in the Hinterland, who are in very limited numbers, had strict orders to avoid any collision with the French. It is also understood that the French forces had been instructed not to come in conflict with the British. The British forces in the Hinterland, it is further stated, are being reinforced considerably.

The collision at Nikki cannot well be disavowed by either nation. It is an event toward which both French and English have been progressing from the first occupation of the Niger country. And the public opinion of neither country will permit a retrograde action. No incident in half a century has brought the French and English nations so imminently confronting war as has this clash over territorial possessions in Africa.

The trouble is of about thirty years' standing. In 1870 France and Great Britain opened negotiations for the settlement of the respective frontiers in West Africa, and it was decided in substance that French influence and authority should be confined to the north of a certain line and that Great Britain should have a free hand south of this line. The outbreak of the Franco-Prussian war interrupted the negotiations. There was considerable opposition in both countries to the cessation of any territory, and during the next five years difficulties frequently occurred. Finally it was resolved to appoint commissioners to reconsider the whole matter, and as a result in the course of the next ten years four separate agreements were concluded.

Report Discredited in Paris.

Paris, Nov. 27.—M. Lebon, the minister of the colonies, has received no information of a collision between the British and French troops at Nikki, in the Niger region, and discredits the report.

Schism in Odd-Fellows Banks.

Indianapolis, Nov. 27.—A schism which is causing much concern among the Odd Fellows of Indiana culminated Friday in the filing of a suit by Center Lodge against the grand lodge trustees, the grand lodge hall association and the grand encampment asking for an injunction to prevent the erection of a new grand lodge hall, plans having been accepted and advertisement made for bids. The plaintiff, Center lodge, alleges that it has a property interest in the present grand lodge building and in the ground on which it is located, and demands that it be sold for partition of the proceeds.

REJECT THE PLANS FOR A COMPROMISE

NORTHERN ILLINOIS MINERS AGAINST JOLIET SCALE

An Overwhelming Majority—Strike Is Broken In the La Salle and Wilming Coal Fields, and the Men Return to Work—Price of Coal Advanced.

Joliet, Ill., Nov. 27.—John M. Hunter, president of the State Miners Union, telegraphed the news to Joliet Friday that the conference report adopted at the meeting in Joliet last Tuesday had been defeated by an overwhelming vote of the miners at large. It was apparent from the returns that all the miners in the northern Illinois field did not vote, but the negatives recorded outnumbered the affirmatives four to one, and it is claimed this sentiment prevails throughout the ranks. Based on these conditions, it may be safely stated there will be no general resumption of work in the mines of northern Illinois. From Spring Valley comes the news that the 2,000 miners in that vicinity 1,800 have voted solidly against the proposition.

BIG COAL STRIKE ENDS.

Three Thousand Miners in the Wilmington Field Resume Work.

Coal City, Ill., Nov. 27.—The three thousand miners in the Wilmington coal field resumed work Friday morning, and the big strike was at an end. The mines of the Star Coal Company, Big Four Coal Company and Wilmington Coal Mining and Manufacturing Company resumed work at the 7 1/2-cent scale.

Peoria, Ill., Nov. 27.—An organized effort has been begun by the mine operators of this district to advance the price of coal to a reasonable figure competition since the strike was declared off having run the price down to a figure lower than ever before. The operators along the Toledo, Peoria and Western met to-day and agreed to advance the price at once 25 to 35 cents a ton, to \$1.25. Meetings of the operators along the other coal roads will be called at once to take similar action. These mines are all paying the Springfield scale.

Carlyle, Ill., Nov. 27.—The strike of the coal diggers employed at the shaft of the Trenton Coal, Light and Power Company was of short duration, and resulted in a complete victory for the obstinate employees. Friday morning the miners who were desirous of working were intercepted and induced to return home. The cause of all the trouble was the discharge of Richard Andrews. His colleagues alleged he was being charged with another man's misdeeds. The operators were determined not to reinstate Andrews, and so announced. The miners Friday succeeded in convincing their employer of the errors of their ways. Andrews will return to work Saturday, and his seventy-five associates will follow in his wake.

Advance Price of Coal.

Peoria, Ill., Nov. 27.—The mine operators along the Toledo, Peoria and Western met here Friday and voted to advance the price of coal 25 cents a ton, to \$1.25. Meetings of operators on other roads will be called early next week to take similar action. These mines have all been paying the Springfield scale, but since the strike have been cutting prices, so that coal has been lower than ever before.

Reject the Scale.

Streator, Ill., Nov. 27.—Streator miners voted unanimously against accepting the proposition of the operators to return to work. A canvass of the votes cast in the Streator district shows 2,808 against the proposition and 672 in favor of its acceptance.

All Americans Now Free.

Washington, Nov. 27.—Secretary Sherman laid before the cabinet Friday a telegram from Consul General Lee and Consul Baker at Sagua la Grande announcing the release from Spanish prisons in Cuba of Louis Somellian, Chaquillo M. Fernandez and Rafael Fernandez, all American citizens. Mr. Sherman stated that with the release of these men there were no more Americans in confinement in Cuba. Since President McKinley was inaugurated thirty American citizens arrested at Havana and other places had been set free.

Fusionists Are for Hanna.

Cincinnati, O., Nov. 27.—At the recent election the fusion ticket which carried this county contained nine democratic and five republican members of the legislature. There has been some doubt as to how the republican fusionists would vote on joint ballot for United States senator. At a meeting of these fusionists here they decided to vote for the republican caucus nominee, which will make the legislature stand eighty republicans to sixty-five democrats on joint ballot for senator.

EXPLOSION WRECKS VILLAGES.

Great Havoc Wrought by Nitroglycerin Around Chesterfield, Ind.

Anderson, Ind., Nov. 27.—Chesterfield, Daleville and the Indiana spiritualists' camp were wrecked Thursday night by the explosion of sixty quarts of nitroglycerin. A gas well was drilled half a mile north of Chesterfield by the Richmond Gas Company and arrangements had been made to "shoot" it in order to increase the flow. Nitroglycerin was brought from Montpellier, and the weather being cold, the six ten-quart cans were unloaded in a field near the well, an exhaust pipe was run from the engine and steam turned on. There was a terrific explosion. A hole 100 feet in diameter and several feet deep was made. The boiler and engine 100 feet away were hurled fifty feet and demolished. James Gold's house, 300 rods distant, was literally torn to pieces, and at Chesterfield it is claimed every house was shifted on its foundation. Persons were thrown out of bed, window panes were shattered, plastering loosened, walls cracked and houses wrecked.

It is claimed not a building on the Indiana spiritualists' campgrounds escaped. The cottages, 100 in number, and the auditorium were all more or less damaged. At Daleville, two miles distant, the damage was almost as great, and at Yorktown many windows were broken. Several persons were more or less injured by shattered glass. The concussion was felt twenty miles away.

It is believed no one was seriously hurt, although Marion Mansey and Samuel McGuire, who were working at the well, were painfully injured. The former was on the platform. He was lifted into the air and carried a distance of fifty feet. No bones were broken.

NEED OF NAVAL DOCKS.

Secretary Long's Firm Plea—He Does Not Fear War.

Washington, Nov. 27.—Uncle Sam needs docks rather than more battle ships. That is the cry of Secretary of the Navy John D. Long in his annual report. He is not haunted, like Gen. Nelson A. Miles, with the fear of war, and does not demand an enormous increase of his arm of defense. He urges congress to order only one new battleship. On the other hand, he asks for at least seven big docks, five on the Atlantic and two on the Pacific coast.

Secretary Long would spend money for docks to save money. He wants docks in order that the huge and costly fighting machines of the sea may be properly cared for. He wants Uncle Sam spared the humiliation of sending his big war ships to British docks when they need to have the barnacles scraped off their sides.

Warrants for Bank Robbers.

La Grange, Ind., Nov. 27.—Bench warrants have been issued by Judge Wilson of the Circuit court for the arrest of Frank Miller, Frank Johnson and Thomas Morrissey for complicity in the robbing of the Bank of Shipshewana. Collins Louchins, who is now thought to be insane, made the confession implicating them soon after the robbery occurred. The three men cannot be found. The officers who obtained the confession from Louchins say he was sane when he talked with them. The officers met Louchins at San Jose, Ill., which is supposed to be his home.

Will Hasten Annexation.

St. Paul, Minn., Nov. 27.—Cushman K. Davis, chairman of the senate foreign affairs committee, said Friday that immediately upon the convening of congress he would move the adoption of the Hawaiian annexation bill. He said he was confident it would be adopted, although he had made no canvass of the senators to learn their sentiments. He said he was confident the report that only 5 per cent of the people of Hawaii favor annexation was incorrect, and he spoke with enthusiasm of the importance of the possession of the Sandwich islands by the United States.

OPPOSED BY THE FRENCH.

Proposed British Cable Disapproved of by That Government.

Washington, Nov. 27.—It is the desire of the British government that the United States shall authorize a British company to land a cable on one of the Hawaiian islands, this cable to connect Canada and Australia.

Such authorization is opposed by the French government on the ground that the laying of a cable with British capital would place Great Britain in control of a telegraphic system reaching around the entire world, and that, in the event of war, before a message could be transmitted the British government's consent would have to be obtained.

Take Sailors for the Navy.

Washington, Nov. 27.—Secretary Long of the navy is turning his eyes longingly in the direction of the Great Lakes to recruit Uncle Sam's navy. His annual report recommends an enlistment of 1,500 additional sailors. It is asserted that the best material is to be found among the practiced sailors of the lakes and there the recruiting agents will work. The percentage of native Americans in the United States navy is increasing. Recently the enlistments have been exclusively American. Eighty per cent of the blue jackets in service are Americans and it is hoped to increase the percentage in the enlistments now contemplated.

BELOIT MAN DIES VERY SUDDENLY

THOMAS BUCHANAN'S DEATH A SHOCK.

Got Up and Attended to the Fires, But Was Found Dead a Short Time Afterward—Herbert Montanye May Not Recover—Lieutenant Steele Is Married.

Beloit, Nov. 27.—[Special]—The friends of Thomas Buchanan were shocked to learn of his sudden death yesterday morning. It seems that he arose at his usual hour, attended to the fire, and then awakened the boarders. While the morning meal was being prepared he retired to his room and was not disturbed until called to breakfast. When he failed to respond to the repeated call his wife went to the room and found him lying on the bed. Thinking he was asleep she stepped to the bed to awaken him and was horrified to find that he was dead, although his body was yet warm. Medical assistance was at once summoned, and heart failure was ascribed as the cause of his sudden demise. Mr. Buchanan was an old and wealthy resident of this city and was well known throughout this section.

Montanye Very Sick.

Herbert Montanye, the farmer who so narrowly escaped being killed by the Janesville passenger train which arrived here at 3 o'clock Wednesday, over the St. Paul road, is still in a very precarious condition, and it is not thought he can recover. He was returning to his home just east of the city when his carriage was struck by the train, as it was crossing the track near Hon. Clinton Babbitt's residence. The horse was separated from the rig, and he was hurled in the air, alighting on the cow catcher, where he was carried for fully fifty yards before the train could be stopped. He was brought to this city, when it was found that his left leg and left arm were broken, and his head badly bruised, and he was suffering from internal injuries, from which it is feared to cannot recover. He will be removed to the railway company's hospital at Milwaukee. This is the same crossing on which Abner Allen met his death in a similar manner several years ago, and it is said it is absolutely impossible to see or hear a train approaching owing to a mill which shuts off the view. Geo. Wilkinson, of whom Mr. Montanye had recently purchased a farm, had just crossed the track and seeing the train approaching turned in his buggy to warn Mr. Montanye, but he was too late, for just as he called out the train struck the former's rig.

NEW BOND FOR MAIL CARRIERS

Only Recognized Companies Will in Future Be Taken as Sureties.

After Jan. 1, every letter carrier in the government service will have to give bond for \$1,000, secured by a recognized surety or indemnity company, to protect the government against loss. Though a bond in this sum is now required of letter carriers, they are permitted to have as sureties any reputable citizens who can qualify for the amount of the bond.

A recent investigation by the department showed that a large proportion of the bonds of letter carriers were worthless. The difficulty of keeping the bonds good and collectible has been so great that it has been decided to accept none hereafter unless signed by recognized corporations who make a business of bonding trusted officials. Carriers already bonded by the latter concerns will not have to give new security.

While all the carriers will hereafter have to pay for their bonds, the cost will not be great. It is said that the average annual cost of a \$1,000 bond will be only \$1.

DR. PRICE'S CREAM BAKING POWDER

A Pure Grape Cream of Tartar Powder. 40 YEARS THE STANDARD.

PUR TRIMMED CLOTH COSTUME FROM HARPER'S BAZAR

While trimmed skirts are certainly newer than the plain ones, there are many smart costumes made with skirts that have no trimming whatever, and which are severely plain and of medium width. The tailor made gowns especially have the plain skirts quite as often as the trimmed ones. A peculiarly attractive model for a cloth gown has the plain skirt and short jacket trimmed with velvet and chinchilla fur. The jacket is belted in, and has a jaunty little basque, which is trimmed all around with a band of the chinchilla. Directions for cutting the gown are given with the tissue paper cut patterns issued by Harper's Bazar, from which this model is taken. Revers, wide at the top and tapering in at the waist line, are bordered with the fur. The high collar has a band of the fur, and there is fur around the flaring cuffs. A fitted vest of gray velvet is one of the features of this gown.

CIRCULARS AT 14 CENTS EACH

Janesville Company Has Hard Work in Getting Printed Matter Through Mail.

E. Wheatley Jones of Hamilton, Bermuda, is on the Janesville Carrage Works mailing list. Last month a circular was mailed to him under six cents postage. Five cents would carry it to almost any point in Europe, Asia or Africa, but the rate to the Bermuda is eight cents, and the letter being short a two cent stamp, was not delivered. It came back this week with eight cents worth of postage due stamps on it. It cost the Janesville Carrage Works fourteen cents, therefore to try to get a circular before the eyes of E. Wheatley Jones, and Mr. Jones is no better off than before.

Whole Flock Taken Before Thanksgiving Day Trade Began.

Who stole dat lock? Dis coon don't know! Who stole dat lock? From de hen house doh?

Oscar Mabee, who has charge of the Jackman farm on Milwaukee avenue, was in no mood to observe Thanksgiving day this year. For the past eight months he has been caring for a flock of turkeys that would have brought him in a handsome sum this week. On going to the turkey house in the early morn, however, he discovered that some unknown person had been ahead of him and taken every bird in sight. The same roost was robbed last year.

RAILWAY BUSINESS BOOMS

Both C. & N. W. and C. M. & St. P. Lines Are Kept Busy.

There seems to be no let up to the rush of business on the railroads. Superintendent Moulton of the Chicago & Northwestern, says that road is doing fully a third more business than they were a year ago at this time.

Agent Bowdoin of the St. Paul road, reports a rush that has not been equaled in this city in many days. Coal, stock and lumber shipments are the most plentiful.

BAKER TO SELL MEDICINES

Says He Must Get Even With the Druggists Some Way.

"You need not be a bit surprised if you see me putting in a line of patent medicines some of these days," said a local baker to a Gazette man yesterday. "I cannot make a living if the druggists make a specialty selling candy, cigars and plug tobacco. And now I hear that some of the druggists intend to sell ice cream by the dish next summer."

Car of Apples.

Sanborn is putting a car of fancy winter apples into his mammoth cold storage and basement Friday. They are the nicest fruit that have been in the city this season and it will be to the interest of every apple eater to lay in the winter's supply at once, as the market is pretty liable to advance soon. THE OVERFLOW OF LOCAL NEWS.

MARK MR. BEAR'S BIRTHDAY

Well Known Resident Reaches the Eighteenth Milestone.

The eighteenth birthday of James Bear, father of the late sheriff, J. L. Bear, and for fifty years a resident of the town of Janesville, was pleasantly celebrated on Wednesday, the 24th inst. First, by a surprise dinner prepared by his daughter, Mrs. B. L. Gage, and participated in by several gentlemen, old friends and neighbors. Second, by an excellent entertainment given by Miss Keating's school at Janesville Grange Hall in the evening, consisting of pleasing recitations and much singing. All the children did splendidly, reflecting great credit on their teacher.

Miss Caroline Shoemaker's banjo solos were heartily enjoyed. Some of the boys sang very nicely, and Miss Edna Shoemaker's little German song was enjoyed by all.

At the close of the program Mr. Peter Aller said, "Eighty years ago this date, at half past six in the morning, in the state of Penn., a little cub bear put in its appearance, it was cared for, grew, thrived, and in later years had endeared itself to this community." Then in behalf of the assembled friends Mr. Aller presented a handsome bible, which gift was feelingly responded to.

After games, laughter and much visiting for a time, the tables were set and were reported to be groaning with their weight of good things and were speedily relieved.

The occasion was also the birthday of little Ella Shoemaker and a handsome birthday cake was presented her. All went home feeling it was good to have been there, and Mr. Bear thinks it is a day of glad surprise.

BATES CLAIMS THE STREET

Beloit Lawyer Wants a Section of a Bowe City Thoroughfare.

Now that Rock county is about to erect a new jail, J. W. Bates and J. Goss, of Beloit, come to the front and calmly claim South First and South Second streets from Park street to the river or rather a strip 55 feet in width. These men claim the street by reason of a deed, that a member of the county board says "dates back to about the time that Columbus landed."

It often happens that the doctor is out of town when most needed. The two year old daughter of J. Schenck, of Oadso, Ind. Ter., was threatened with croup. He writes: "My wife insisted that I go for the doctor at once, but as he was out of town, I purchased a bottle of Chamberlain's Cough Remedy, which relieved the child immediately." A bottle of that remedy in the house will often save the expense of a doctor's bill, besides the anxiety always occasioned by serious sickness. When it is given as soon as the croupy cough appears, it will prevent the attack. Thousands of mothers always keep it in their homes. The 25 and 50 cent bottles for sale by C. D. Stevens, pharmacist, corner Main and Milwaukee streets.

THE TREE HELD THE TROUPE

So Now the Strolling Actors Seek Damages From the Town.

Marshall Bros., who gave an exhibition of "Uncle Tom's Cabin" near Fetherston's mill at Milton last summer have sued a township in Vernon county for heavy damages, on the claim that the show was delayed for several hours by a tree that had fallen across the highway.

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which Is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur from no apparent cause and loss of blood causes death. Hemorrhages occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It lays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials we have lately received: Mrs. M. C. Hinkley, 601 Mississippi St., Indianapolis, Ind., says: "Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure."

Mr. M. Griffin, proprietor of the Griffin House, Detroit, Mich., says: "I have been a sufferer from piles until three years ago I bought one box of the Pyramid Pile Cure and since then I have had no piles. I have recommended them to many friends and guests at my hotel, every one of whom has been cured."

The above is true as my experience has proved it and I hope it may induce other sufferers to try the Pyramid. A little book on cause and cure of piles will be mailed free to any address by writing to Pyramid Drug Co., Marshall, Mich.

Druggists sell full sized packages of Pyramid Pile Cure at 50 cents.

A SATISFACTORY LAW.

The operators of the new Dingley law seem to have been just what was intended in the matter of keeping down importations of foreign products. The August and September importations from the thirteen countries in question were \$44,613,583 under the Dingley law, and \$9,545,403 in the corresponding months of last year under the Wilson law.

Another feature of the operations of the new law which will prove equally gratifying in its prospective work in the matter of reciprocity. No feature of the Wilson law proved as unsatisfactory to the people of the United States as that paragraph which destroyed the reciprocity treaties which were put into operation under the provisions of the McKinley law. They were, it will be remembered, absolutely wiped out of existence by the Wilson law. The Dingley law, when it was enacted, gave authority to make new reciprocity arrangements, giving a much larger number of articles upon which reciprocity treaties could be based. This feature of the law has been promptly taken up by the administration, a special committee appointed to negotiate reciprocity treaties, and the work has already so far progressed as to make it quite apparent that the reciprocity features of the new law are going to be extremely successful and prove very gratifying, not only to the framers of the law, but to the friends of the reciprocity proposition all over the country.

Congress, when it meets to begin its regular long session, will have ample cause to be gratified with the workings of the tariff law which it passed at the special session ending four months ago.

Although Seth Low didn't take his first step towards a presidential nomination by getting elected mayor of New York, his friends have determined to try to carry out their original programme by making the "Citizens Union" a permanent political organization. This they have a perfect right to do, but they have not the right to call themselves republicans while engaged in trying to break up the republican party.

It might be well to remind some gentlemen that the great mass of republican voters do not care a continental about the personality of the leaders in the several states, so long as republicans are elected to office, and the principles of the republican party, which have never failed to give the country prosperity, are maintained.

Having tumbled over numerous doleful predictions by securing every dollar due the government from the Union Pacific railroad, President McKinley's administration is now preparing to bring the Central Pacific to book.

A Washington man lost \$25,000 trying to run a red hot Bryan free silver daily in Richmond, Va., which indicates that the silver men of the old Dominion's capital are not the kind who support newspapers.

If Jerry Simpson and the New York hermit, who is making all sorts of doleful prophecies about the near future, would pool their issues and howl in concert they might attract more attention.

If Mr. Hannis Taylor knew as much as he thinks he knows about what would follow a given line of action on the part of this government towards Cuba, he would be the wisest man of his generation.

When democrats talk about the present tariff causing a treasury de-

ficit, after the issuing of \$260,000,000 in bonds as a direct result of democratic tariff-tinkering, we are bound to admire their nerve, if not their sense.

President McKinley has done what he believed to be his duty in negotiating a new arbitration treaty with Great Britain. If the senate declines to ratify it, that will be its own lookout.

Kentucky ought to be a standing warning to the republicans of other states who are reckless enough to engage in factional fights.

No country ever gets so prosperous that its people can acquire money honestly without working for it.

The Steady Increase Of Business.

That marks the worth of a store. Spasmodic trade is easy to attain, but that is only here today and some other place tomorrow. It's the steady, ever-increasing volume of business that tells the tale of people's confidence. Sanborn's business is a growing one. New people making the store "their grocery" every day--becoming satisfied it's the best place in the country to trade, and that prices and quality are dependable. Plenty of reason why Sanborn's should be a favorite store. If you're a customer of Sanborn's you know why it's the best place to trade. If you are not you should become a convert at once.

BINS FULL OF GRAIN
AND BUYING ENDSJEFFERSON FIRM HAVE ALL
THEY WANT.

Have Purchased 60,000 Bushels of Barley and Will Open An Agency Here Later On—Cargill Elevator to Be Open In a Few Days.

Stevens & Puerner, who have been purchasing grain in this city this summer in the interest of the Jefferson brewing firm of Rudolph Hager & Co., today ceased buying.

They have bought this summer, in Rock county, close to 60,000 bushels of barley, and every available inch of space in the Hager grainaries at Jefferson is now full. It is only because they have no more storage room that they will discontinue buying.

The prices paid by this firm this summer were low as twenty-six cents, and as high as thirty-three cents, all depending on the market and the grade of grain offered. No grain buying firm has visited Janesville of late years that has carried on such an extensive business as has this Jefferson firm. In the months of July, August and September, they were the means of bringing hundreds of farmers to this city from many miles around who might have otherwise looked for other markets in other towns. J. N. Stevens, who has done most of the buying, said to a Gazette man today that his firm was well satisfied with their dealing with the farmers of Rock county, and that the farmers were pleased as well. As soon as the weather permits, Mr. Stevens says, the Jefferson firm will again establish an agency in this city and will buy barley on an equally extensive plan.

The chances are, however, that they will buy more next season than they did this year.

Mr. Cargill's Plans.

Grain buying will not stop here because the Jefferson firm have finished their work however.

W. W. Cargill's man will be on duty within a few days.

The work of putting the Cargill elevator on Center avenue in shape for receiving grain is progressing as rapidly as possible. When Contractor John Wilcox and men took hold there was more work before them than it was at first thought would be necessary and as the work progressed several new suggestions were offered and followed out.

Mr. Cargill says that before he takes hold he wants the building to be in the very best of shape so that the first load of grain may be handled with as much ease as the last one taken in, the loss of handling without proper facilities being quite heavy. A buyer is expected here next week from LaCrosse and then business will begin in earnest.

The opening of grain markets here has been of great benefit. Many farmers were in town today who, doubtless, would have gone to some other place if they could not find a profitable market here.

Every large brewing firm in Milwaukee is now having their beer retailed in this city.

George Charlton Talks of Janesville and Chicago Horse Markets.

Heavy draft and work horses can be purchased to better advantage by local buyers in the Chicago market than they can here at home. So says George D. SOCIETIES TO MOVE
INTO NEW HALLSSEVERAL CHANGES HAVE BEEN
MADE.

Odd Fellows Lodge No. 90, Lease the Quarters Now Occupied By the Union Catholic League, and May Sublet to the Woodmen For Certain Evenings.

Local secret societies are changing headquarters. Chairman James A. Fathers of the board of trustees of Janesville City Lodge No. 90, I. O. O. F., today leased the hall in the Mitchell block, for that lodge. The lease is made out for five years, with the privilege of ten, at an annual rental of \$300.

The Union Catholic League has occupied the hall, but will vacate the same some time next month, for on January 1, 1898, their lease expires.

The League has not as yet secured new quarters. The lack of proper accommodation and room caused Lodge No. 90 to thus change. For the past six years they have occupied rooms over 71 West Milwaukee street but they have proved altogether too small.

The lodge is now composed of about one hundred and twenty members. New members have come in so rapidly that it has become absolutely necessary to seek new quarters before any more members could be admitted.

The Mitchell hall has several adjoining rooms that will be utilized while the main room is 40x60 feet. Decorators will be put to work the latter part of next month and the hall throughout will be put in the best condition.

Woodmen May Meet There.

The local lodge of Woodmen, which have for years occupied quarters in the Carle block at the corner of Main and Milwaukee streets will be obliged to seek new quarters on Jan. 1, 1898. There lease then expires and it is said that the Masonic lodge will come into possession of the hall now used by the Woodmen. It is said that a movement is now on foot to secure the newly acquired Odd Fellows hall certain nights in the week for the Woodmen.

W. H. Sargent Post No. 20, Grand Army of the Republic, held their last regular meeting in their present quarters in the Odd Fellows block on North Main street last evening. Their new quarters over the First National bank, will be in readiness the latter part of next week and the next regular meeting of the Post which occurs December 10 will be held there.

TOBACCO SHED IS BURNED

Leaf Valued at \$2,000 Consumed Near Edgerton.

A large tobacco shed on the farm of Owen Pomeroy in Fulton, containing twelve acres of hanging tobacco was destroyed by fire. The loss will be \$2,000 partly covered by insurance in the town of Albion Mutual Fire insurance company.

The blaze caught from a defective flue, a fire having been started in a stove in the shed. The building was insured, but the tobacco was not.

SKATING ON THE GAS POND

First Freeze Drew a Crowd to the Newly Formed Ice.

The "gas pond" was this morning the most favored spot in the entire town. The cold snap made skating possible and the skaters were soon out by the score. The ice in the river proper is not thick enough to hold a person up.

"STRONG MAN IRVING"

Agrees with Other Athletes on Points in Diet.

Montgomery E. Irving, who is said to be one of the strongest men in the world, in a recent interview with the Baltimore, Md. News, said, in regard to diet. "Keep away from coffee. It should be taken off the market."

Whenever one talks with athletes nowadays, he finds the same expression in regard to coffee. It weakens the heart, shortens the wind, and unless one is very strong in the digestive apparatus, interferes seriously with that portion of the body.

If it is necessary for a strong man to avoid narcotics and drugs of this character, it would seem especially important for the brain worker or the highly sensitized and delicately organized woman to avoid them as they would any other poison, if they feel the slightest desire to maintain their health and a comfortable poise of the nervous system.

True, many people seem to use coffee without a direct harmful effect, but a little careful inquiry will reveal always develop the fact that coffee users have some disturbance of the body, which they always attribute to some other cause than coffee, but which, by a curious law, is likely to be helped if they can ever be induced to abandon coffee for ten days to a month, and take on Postum Cereal Food Coffee, which instead of narcotizing and destroying the nervous system, furnishes the food elements demanded by nature to rebuild the gray matter in the nerve centres throughout the body.

Postum is widely endorsed by athletic trainers, famous bicycle riders and boxers, as well as thousands of well known men and women who earn their living by mental occupations.

Postum is the only Cereal Food Coffee yet discovered, with a coffee taste, that is pure and free from low grade coffee or other drugs.

APPLEBY WAS AFTER THE BOYS

Lads Who Jump on Trains Are To Be Arrested.

Officer W. H. Appleby had a chase through the St. Paul freight yards this morning after a gang of sixteen year old boys who were "catching on" passenger trains. Railroad men complain of the boys who indulge in this dangerous pastime in spite of threats by the police. Yesterday morning when the Madison passenger on the St. Paul road pulled out over a dozen boys were aboard riding from the depot to the Jackson street crossing where they jumped off.

POSTAL CREWS HERE
AND HARD AT WORKTELEGRAPH COMPANY'S MEN
ARRIVE.

Line Is Built to Within Three Miles of Janesville, But the Route From that Point Has Not Been Selected—Local Office Has Not Been Leased.

The Postal Telegraph Co's. men are now at work in the city and three miles south of this city another crew are working towards Janesville.

Foreman Johnson in charge of fifty men are now busily engaged along "the prairie road" between this city and Beloit setting poles and stringing copper wire.

W. W. Copeland, A. Barker, Daniel Ryan, W. Wilson, W. H. Spradley and H. Graves are now in this city at work. They are the advance guard, and are hauling poles from here south along the route to be traveled.

The Postal officers selected "the prairie road" believing it to be the shortest and most convenient route. The work south of this city has been delayed, because the crew not having received official orders as to which road and streets are to be occupied in entering the city.

The prairie road, for three miles out, is not favored on account of so many trees that line both sides of the road. The workmen claim that it would require constant work to keep the wires clear of branches.

In case they do not enter the city via this route, the line will be built due west, and then north, entering the city via Center avenue.

The weather at present is all that could be asked for at this time of the year. The post hole diggers are having little or no trouble the ground only being frozen to a depth of about three inches. The cross arms that go with every pole are being put up to accommodate six wires but it is not known at present just how many wires will enter the city.

The company have done nothing towards selecting a main office no suitable location in the business section having been found. They will not locate on a second floor unless it is absolutely necessary.

The Western Union messenger boys have been notified to put on uniform and cap by Dec. 12, and it is said that they will be supplied with bicycles next season.

WINTER MATERIALS.

Native Costumes Are Made of Irish Poplin—Flannel Shirt Waists.
Irish poplin, rich in appearance and reasonable in price, is in great demand at present. It had not been seen for many years until a year or so ago, when it suddenly made its way to the front again. In black it is particularly desirable for skirts to accompany various bodices. Entire costumes of poplin are also seen.
Moire faconne—that is, fancy moire having a geometrical or floral pattern wandering over it—is a feature among this season's materials and is very pretty and not remarkably expensive. In black it is effective for separate skirts.
The fashionable favor shown to shirred velvet, which may be had by the yard in all colors, has been already mentioned. It now remains to chronicle the appearance of shirred silk, also to be had by the yard. This latter material, looking somewhat like seersucker, is usually china silk, and is not particularly easy of manipulation, since the shirring threads have been withdrawn, and the stuff is as elastic as an accordion, having nothing to hold it firm in its fullness.
Flannel shirt waists have become an institution. They are plaid or striped,

TRAVELING JACKET.

usually the former. The popularity of shirt waists for morning and working wear is by no means lessened, and therefore woolen waists have been brought out for winter wear, when cambric and percale would be too thin. The flannel for these waists must be partly cotton, as washing shrinks all wool goods beyond use.

The picture shows a traveling jacket of heavy plaid cloaking. It is held in to the figure at the back by a buttoned strap, but in front it is straight and double breasted, fastening with fancy buttons. The revers and high turnover collar are bordered with mixed fringe, as are the wrists of the close sleeves. The jacket is lined with surah matching the prevailing tone of the plaid. JUDIE CHOLLET.

FASHIONS IN FUR.

Sometimes It Is Enriched With Applications of Lace.

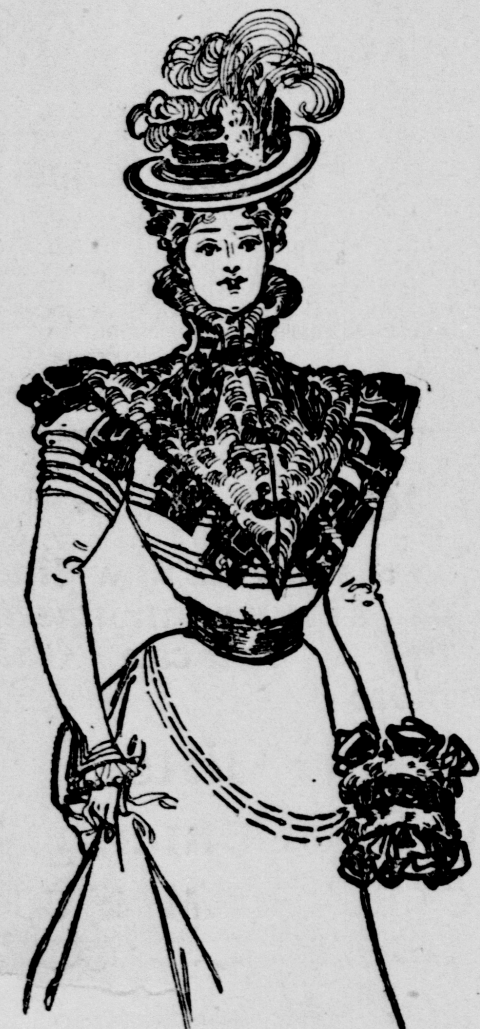

Embroidered fur and fur enriched with applications of lace and passementerie are very fashionable and very expensive. These applications are always made upon fur which has been clipped short, and embroidery of beads and spangles is very effective upon it. Costly fur, which is worn in spots or has been moth eaten, may be thus adorned, so that the damaged parts are quite concealed.

Costumes almost entirely of fur are a feature of the season. A fashionable model has a skirt and bolero of caracul, the bolero opening over a silk blouse.

English point, point d'alencon and point de paris are favorite laces for draping wedding gowns. Embroidered tulle, just now very fashionable, is also used.

Pretty capes and blouses of cloth are closely covered with narrow mohair braid, arranged more or less in horizontal lines. This braid sometimes shows a metallic thread. Borders, collars and revers of fur form an appropriate finish.

Combinations of fur are this season seen in abundance. Dark and light are usual.

PELERINE.

placed together or long pile furs and those having a short pile. Light fur is used as a trimming, and long fur decorates garments of short fur. Sable and astrakhan, otter and chinchilla, are two favorite unions.

Many blouse jackets of otter are seen and also some of chinchilla, but a chinchilla blouse makes the wearer appear rather clumsy.

Today's picture shows a pelerine for a young girl. It is of gray astrakhan and is round at the back, forming a point in front. Tabs of black astrakhan are applied as a trimming, and the pelerine is fastened by buttons and brandebourgs of black passementerie. The edge is decorated with loops of black satin embroidered with steel. The muff matches the pelerine. The gray felt hat is trimmed with black velvet and gray ostrich plumes.

Col. Morrison Complains.

Washington, Nov. 27.—Col. Morrison wants congress to enact a law conferring some authority on the interstate commerce commission. "The courts," he said, "have, little by little, stripped us of all power, until we are very little more than an advisory body, with nobody to take our advice."

We wish to impress the necessity and practicability of early buying. We always do (most of us at least) swear every Xmas we will make our purchases a month, at least, in advance, the next year; but how we do forget. Most sensible thing one can do--this early buying.
